

PRESS RELEASE: For Immediate Release

December 9, 2024 - Hardyston, New Jersey

Executive Talent Search Partners Announces New Executive Team

President of Executive Talent Search Partners (ETSP) Sean Fitzmorris announced today the new executive leadership team that will be leading their business development efforts into 2025.

Recently joining ETSP are Erin Vail of Cedar Rapids Iowa, Chris Cano of Princeton, New Jersey and Brian Wood of Tampa, Florida as Vice President of Business Development.

Erin is a seasoned executive leader, bringing 10+ years of sales and marketing with a wealth of experience in strategic planning, business development, and revenue growth. Chris has 20 years of business development leadership experience and expertise in the pharmaceutical industry with multiple therapeutic areas and medical device. Brian has worked the past 25+ years as a Field Service and Business Development executive in the Healthcare and Life Science / Pharmaceutical industries.

Another recent addition is Jerry Recht of Atlanta, Georgia as the new Senior Vice President of Commercial Solutions. Jerry has 25+ years as a sales leader having a wide variety of experience in the Healthcare Industry from Payers to Providers to Life Sciences (Medical Devices, Pharma, etc.) focusing on providing business and technology solutions.

In addition, Executive Talent Search Partners announced the promotion of David Justice of Plano, Texas to Chief Operations Officer. For the last 25 years David is a Security and Sales executive with consultative background in multiple domains: Physical and Cyber Security. David began his professional life as a law enforcement officer for 10 years.

ETSP is a boutique search firm that offers a hybrid approach of Executive Search and traditional RPO search, successfully bridging the gap between these recruiting models. Through a collaborative hands-on approach to learn the needs of our client partners, our passion is to build meaningful relationships with highly skilled and experienced information technology and information security professionals for Healthcare, Pharmaceutical, Biotechnology and Life Science companies.
