

How many people are **actively looking** for jobs?

Source: LinkedIn

Retrieved from <https://www.talentlyft.com/en/blog/article/77/list-of-hr-statistics-that-have-changed-the-way-we-recruit>

According to TalentLyft 73% of all candidates are passive job seekers, meaning they are not actively applying to open positions. Compared to only 12% are who are actively looking and applying. That is a huge discrepancy, resulting in over half of the candidate talent pool who are not being reached and considered when we rely only on applications.
